If you are interested in filling a staff position in Chapter H, please contact any of the Chapter Staff listed above.

GWRRA GEORGIA CHAPTER H April 2014

PARTICIPATION

Everyone knows the definition of participation, but I would like to spell out what it means to me. P= People. It takes people getting involved to make a ride or event more fun. A= Activities. Your Chapter staff tries very hard to provide activities and rides to give you the most benefit from your membership. R= Riding. We all joined GWRRA for the joy of riding. It might be a lot of fun once in a while to get out by yourself and go for a short ride. To me, the more the better. T= Training. We all could use a little more training. Whether it is to hone our riding skills, learning more about GWRRA or your Chapter, or learning a skill that just may save someone's life like CPR First Aid it defines the phrase "The more you know, the better it gets". I= Involvement. Have you ever heard members talking about a ride that a group has gone on they say what a great time they had and wish you had gone along? Camaraderie= I can think of nothing more rewarding and fun than to have the chance to gather with a bunch of people who share the joy of riding

our motorcycles. I= Importance. If you don't realize the importance of your participation in Chapter functions, just think about what the Chapter would be like if no one participated. There would not be a Chapter. P= Prepared. Participating in Chapter maintenance days, Seminar Saturdays or CPR and riding courses prepares us for a safer and more confident experience while out on the road. A= Adventures. Every ride we go on is an adventure. I am sure you will agree every time we go on a ride, we see or learn something we had never seen or knew before. It might be that we learned no one can eat the entire large order of steak at Benton Lees, or you learned a new route to get there. We are going to expand our adventures this year. T= Teamwork. As a team we can accomplish more than an individual. If we work together to achieve the goal of having fun in the Chapter, it is far more effective than a Chapter Director trying to determine what each individual would like to get out of Chapter life. I= Incentives. Every time you ride your motorcycle on a scheduled

ride, you are offered the opportunity to purchase a ride ticket. At the next Chapter gathering we will draw one ticket for some lucky person to receive all the money collected on the rides. The only rules are that you must ride your bike and you must be present at the gathering for the drawing. O= Ownership. You have a definite ownership in the Chapter. This is your Chapter. You need to let us know your wants and needs to make your membership rewarding. N= Needs. Friends, Fun, Safety and Knowledge. All these things support our needs for what we look for in a motorcycle organization. Remember, you can think of a hundred reasons not to ride but it only takes one to get out there and participate.

Bill and Betty Livingston

Tire Pressure the key to Tire Performance

Stamped on the outside of many of your tires is a recommended tire pressure range or upper limit. The longest tire life is achieved when tires are kept at the recommended upper limit regardless of what your motorcycle owner's manual might say to the contrary. Who would know the tire better than the manufacturer.

Tire pressure should be determined while the tires are cold - meaning, the tire having not been used for a couple of hours.

Time and outside temperature effect the pressure within your tires. It is normal for a tire to lose about 1 psi per month. Outside temperatures affect your tire pressure far more profoundly, however. A tire's pressure can change by 1 psi for every 10 degrees

Fahrenheit of temperature change. As temperature goes, so goes pressure.

For a safe ride and long tire life, check your tire pressure before each ride.

Ride Safe !! Rich Morgan

Happy Birthday to:

Betty Livingston 19 Mar

Happy Anniversary to:

Rich and Marilyn Morgan 9 Mar

Ron and Earlyne Munson 15 Apr

Up Coming

Rides and Activities

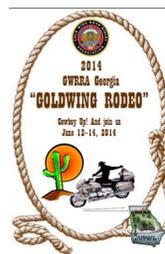

Apr 3-5 Alabama District Convention in Mobile Al
